

FREEDOM ALLIANCE, LLC

– A VETERAN OWNED COMPANY –

Executive Summary

August 2018 **America**

is at a crossroads!

We will choose the path of Freedom or the path of Tyranny or Socialism. Many have been working in the shadows for years to steer America towards this evil path. Their work is now blatantly in the open. What is needed to counter their deeds, and redirect us towards American greatness is a bold statement -a rallying cry- of our dedication to freedom.

A new beacon of light will point the way towards Freedom and away from the darkness of Socialism. That beacon will be the **Monument to Enduring Freedom!**

Located on America's West Coast, the Monument to Enduring Freedom will stand as a proud symbol of America's purpose in the world; to let freedom ring in the heart of mankind. Together with the Statue of Liberty on the East Coast, these two pillars of liberty and freedom will forever declare America's message that *"life, liberty and the pursuit of happiness"* is alive in the soul of our country and our people.

The 21st Century is upon us. America faces many new challenges. The strong forces of evil in powerful positions in our government wish to tear down our founding principles and fundamentally replace our God given *"inalienable rights"* with *"government given"* rights.

This fundamental transformation of America towards Tyranny and Socialism must never be permitted to succeed. Much is needed to thwart that movement. Some patriots are engaged today in the cause to save our country. Their work will be highlighted and strengthened by erecting the Monument to Enduring Freedom. Once built and dedicated, extensive educational outreach programs will follow, all emphasizing our founding principles and American Exceptionalism.

The Monument to Enduring Freedom will be our country's clarion call to all who choose freedom!

Stand with us! Stand with our cause! Stand with the Monument to Enduring Freedom!

As a third generation Army veteran, it is a sublime honor for me to pursue the building of the Monument to Enduring Freedom and organize the many educational outreach programs that will emanate from it. After a decade of research and work on an earlier iteration of this project, the time is at hand to make it happen. A team of patriots is now needed to complete the task.

Join us for truth! Join us for freedom! Join us in building the **Monument to Enduring Freedom!**

Onward & Upward

Daniel L. Bolz
